

GAME BOY TETRIS LEAGUE

RULES - WINTER '26

Match rules:

- Original GB Tetris (A-Type)
- Bo5
- 300 line cap
- Level start is picked from the options allowed in your division, alternating between players starting with the lower PB
- Gameplay must be unmodified, but otherwise romhacks – especially the popular score uncap mod - are ok
- SPS allowed IF both players have the option AND can use the corresponding level start for their division
- Be on stencil!
- All consoles allowed, including emulation
- All playstyles allowed
- Players assigned to divisions based on their PBs and previous division standings

Oh-No's:

- no-shows (unexcused absence for at least 15 minutes past match start) penalized with 1 league point deduction for first offense, 3 for second offense, and removed from season at the third offense
- If you think you deserve an exception for a no-show (i.e. couldn't make match due to emergency) let us know, we're pretty understanding!
- bigotry (homo/transphobia, racism, etc.) and unkind behavior in general is prohibited, with penalties ranging from warnings to a ban at staff discretion.

Premiere Division (roughly 900+ PB):

- heart_5 or heart_7 starts on original rom; H or F starts with rom hack
- Lowest ranking player relegated
- Second lowest enters relegation playoffs

Challenger Division (roughly 400-900 PB):

- Heart_2 or heart_5 starts on original rom; C or F starts with rom hack
- Top player promoted to Premiere
- Second highest ranking player goes to promotion playoffs

Academy (roughly 0-400 PB):

- 9 or heart_2 starts; C starts with rom hack
- Top player promoted to Challenger division
- Given enough signups there will be two subgroups with a playoff to determine top player

How to play:

- Most streams will use vdo.ninja along with your streaming software. Ask for help if needed.
- GB Interceptor is ideal for capturing gameplay, but pointing a camera at your screen is allowed as long as it is legible
- Player and/or handcam is requested but not required.
- Players are responsible for scheduling their matches.
- If you can't find a restreamer you may either stream your games separately while watching each other's streams, and posting both VODs with the results; or streaming your matches to a video call and screen recording the match.

Restreaming:

- Stream to Twitch (recommended), or YouTube
- vdo.ninja recommended but use whatever system works for you
- Make sure VOD is published
- post results to #gbl-match-report, spoiler-proofing the results, and include a link to the VOD
- Ask if you need help getting set up!
- If possible, record any Premiere level matches so we can put them on our YouTube channel

League Scoring:

Each player faces each other player in their division once, gaining points based on the results of the match.

- for a 3-0 result the winner will get 8 points and the loser will get 0 points
- for a 3-1 result the winner will get 7 points and the loser will get 1 point
- for a 3-2 result the winner will get 6 points and the loser will get 2 points

When in doubt, ask! As of season 6 the league is administered by Pascal, Nells, and Furio (Frank), and there are many knowledgeable voices in the community.
